SEC Rule 15Ga-1 Methodology Statement

Fannie Mae is filing this report in compliance with SEC Rule 15Ga-1. The following information is provided to assist the reader in interpreting such report.

Fannie Mae filed its initial report in compliance with Rule 15Ga-1 as of February 14, 2012. Such report included all Fannie Mae mortgage securities (with tho forth below) outstanding as of December 31, 2011 and included all activities between and including January 1, 2009 and December 31, 2011 that relate to repurc Fannie Mae against the seller of the related mortgage loans (including activities in such period related to repurchase demands made prior to January 1, 2009) representations and warranties related to such mortgage loans.

In accordance with Rule 15Ga-1, Fannie Mae is filing a report on a quarterly basis approximately 45 days after the end of each calendar quarter. Such report securities (with those exceptions as set forth below) outstanding at the beginning of that calendar quarter, and includes all activities in that calendar quart to repurchase demands made by Fannie Mae against the seller of the related mortgage loans (including additional activities in such period related to initial reporting period) for breaches of representations and warranties related to such mortgage loans.

Because the report does not include information related to the origination date of a mortgage loan, market participants should not draw conclusions about the securities based on the date on which the report was filed. In order to determine the issue date of an MBS, one can look up the CUSIP, Trust or Pool number o on Fannie Mae's website or utilize another third-party data source. Fannie Mae also provides the origination year of the mortgage loans in a particular pool the Prospectus Supplement for each issuance of MBS.

Fannie Mae engages in a variety of practices with respect to mortgage loans where there are breaches of representation and warranty. Fannie Mae may require a loans from a Fannie Mae trust if it determines that there has been a breach of representation and warranty. Alternatively, Fannie Mae may have already remove a Fannie Mae trust in accordance with the terms of the related trust agreement at the time that it makes such repurchase demand. Such repurchase demand may ror may alternatively result in a payment by the seller of the mortgage loan to reimburse Fannie Mae for losses that it has suffered with respect to such mortg settlement of such demand, as agreed to by the seller and Fannie Mae. Each such repurchase demand made by Fannie Mae with respect to a listed mortgage securion (i) whether the mortgage asset in question is in the related Fannie Mae trust at the time of demand and (ii) the ultimate resolution of such demand. Consi and 10-Q SEC filings, the first receipt date of funds for repurchase, as captured in Fannie Mae's systems, is used to determine when a repurchase demand has b

The report will not include percentage calculations for most fields.\frac{1}{2} Because Fannie Mae routinely makes repurchase demands after the related mortgage loans Fannie Mae trust, such percentages would tend to overstate (and, in many cases, significantly overstate) the percentage of a given Fannie Mae trust that was swill provide the number of mortgage loans and the principal balance of such mortgage loans in each case.

Breaches of representations and warranties generally relate to the underwriting of a mortgage loan, but may sometimes relate to (i) misdeliveries unrelated to or (ii) servicing violations. The report includes all breaches of representation and warranty where Fannie Mae is seeking a remedy, and does not distinguish deficiencies and those unrelated to such deficiencies. For example, a mortgage loan seller may inadvertently include a fixed-rate mortgage loan as part of an mortgage loan may meet Fannie Mae underwriting requirements, but Fannie Mae nevertheless has the right to demand repurchase of such mortgage loan because it v representation and warranty that such mortgage loan bears an adjustable rate.

This report includes only those Fannie Mae mortgage securities where Fannie Mae has the right in the related transactional documents to demand repurchase by t representation and warranty. These securities typically include Fannie Mae single-family MBS, Fannie Mae whole-loan REMICs and multifamily securities. Conse mortgage securities, including Megas, Stripped Mortgage-Backed Securities, most REMIC Securities and other securities backed by Ginnie Mae securities or other in this report.

As described above, the mortgage loans may not necessarily be in the related Fannie Mae trust at the time that such repurchase demand is made. Additionally, repurchase that is paid off prior to the actual repurchase will not be reflected in subsequent reports. The data in the report is presented by issue date wit securities commingled throughout the report and structured products (such as REMICs) reported at the end. For applicable Fannie Mae structured products gover will be reported at a deal-group level. As the deal-groups pay off, the data will be removed from subsequent reports. Certain terms used in the report are d

The term "Total Assets by Originator" presents, by originator, the number and issue date principal balance of the mortgage loans in each Fannie Mae trust. party that funded the mortgage loan in question. It is common practice in the residential mortgage lending industry for some originators to sell mortgage loa parties, who aggregate such mortgage loans from multiple originators and sell them to Fannie Mae.
