MONTHLY SUMMARY HIGHLIGHTS

MARCH 2007

- > Fannie Mae's book of business grew at a compound annualized rate of 13.5 percent in March driven by healthy growth in MBS issuances.
- > Total Fannie Mae MBS and other guarantees rose at a compound annualized rate of 11.9 percent in March compared with 8.3 percent in February.
- > The gross mortgage portfolio balance was \$713 billion in March. We currently estimate that our "mortgage portfolio" assets for purposes of the OFHEO consent order were approximately \$712 billion in March. (For a discussion of the differences between these measures see Additional Information on page 2).
- > Net retained commitments rose to \$14.1 billion in March, as a result of higher commitments to purchase.
- > Both the conventional single-family and multifamily serious delinquency rates were stable at 0.66 percent and 0.10 percent, respectively, in February (latest data available).
- > The duration gap on Fannie Mae's portfolio averaged minus one month in March.

MORTGAGE MARKET HIGHLIGHTS

> The monthly average ARM share of the number of conventional mortgage applications decreased by 0.8 percentage points during March to 21.1 percent — the lowest such share recorded since July 2003.

ADDITIONAL INFORMATION

As previously announced, on May 23, 2006, Fannie Mae agreed to a consent order issued by its regulator, OFHEO. Under the consent order, Fannie Mae may not increase its "mortgage portfolio" assets above the amount shown in its December 31, 2005 minimum capital report, except under specified circumstances at the discretion of OFHEO. Fannie Mae believes it is in compliance with the terms of its consent order with OFHEO. The "gross mortgage portfolio" balances set forth in this monthly summary report represent unpaid principal balances, which represent statistical measures rather than amounts computed in accordance with GAAP. "Mortgage portfolio" assets that are reported to OFHEO under the consent order reflect GAAP adjustments, including market valuation adjustments, allowance for loan losses, impairments and unamortized premiums and discounts. These adjustments are not reflected in the "gross mortgage portfolio" amounts shown in this report.

We expect that some of the information in this monthly summary report will change when the financial statements and related audits for the relevant periods are completed. Management believes that the information may be useful to investors for comparing current business activities with those of prior periods and for reviewing trends in our business, notwithstanding that information may change, perhaps materially, from what is reported herein. Issues that will cause some of this information to change include those related to our securities accounting, loan accounting, consolidation and amortization.

Numbers may not sum due to rounding.

See Endnotes and Glossary on Page 3.

ENDNOTES

- The end balances and business activity in this report represent unpaid principal balances ("UPB"), which do not reflect, for example, market valuation adjustments, allowance for loan losses, impairments, unamortized premiums and discounts and the impact of consolidation of variable interest entities
- Includes capitalized interest.
- 3 Includes Fannie Mae mortgage-backed securities ("Fannie Mae MBS") issued from Fannie Mae's portfolio. See Table 5 for monthly activity and balances for Fannie Mae MBS held in the mortgage portfolio.
- Represents new Fannie Mae MBS created from mortgage loans previously held in the mortgage portfolio. These amounts, included in the Issuance balance in Table 4, have been transferred from mortgage loans to securities, and may be included in sales
- In this table, non-agency securities that Fannie Mae has guaranteed are included with non-Fannie Mae mortgage securities. These securities are sometimes referred to as "private label wraps."
- Reported amounts represent the unpaid principal balance at each reporting period or, in the case of the long-term zero coupon bonds, at maturity. Unpaid principal balance does not reflect the effect of currency adjustments, debt basis adjustments, amortization of discounts, premiums, and issuance costs.
- Includes conventional single-family loans three months or more past due or in foreclosure process as a percent of the total number of conventional single-family loans. These rates are based on conventional single-family mortgage loans and exclude reverse mortgages and non-Fannie Mae mortgage securities held in our portfolio.
- Loans without primary mortgage insurance and/or other credit enhancements
- 9. Loans with primary mortgage insurance and/or other credit enhancements.
- 10. Total conventional single-family serious delinquency rate includes non-credit enhanced and credit enhanced loans.
- Includes multifamily loans and securities 60 days or more past due and is calculated based on UPB of delinquent multifamily loans owned by Fannie Mae or underlying Fannie Mae guaranteed securities divided by the UPB of multifamily loans owned by Fannie Mae or underlying Fannie Mae guaranteed securities. Data for 2006 have been revised from amounts previously reported to conform to current 11. presentation.

The duration gap calculation includes non-mortgage assets and liabilities.

Table 9

Serious Delinquency Rates. A measure of credit performance and indicator of future defaults for the single-family and multifamily mortgage credit books. We classify single-family loans as seriously delinquent when a borrower has missed three or more consecutive monthly payments, and the loan has not been brought current or extinguished through foreclosure, payoff, or other resolution. A loan referred to foreclosure but not yet foreclosed is also considered seriously delinquent. We include all of the conventional single-family loans that we own or that back Fannie Mae MBS in our single-family delinquency rate, including those with substantial credit enhancement. We classify multifamily loans as seriously delinquent when payment is 60 days or more past due
