Fannie Mae is filing this report in compliance with SEC Rule 15Ga-1. The following information is provided to assist the reader in interpreting such report.

Fannie Mae filed its initial report in compliance with SEC Rule 15Ga-1 as of February 14, 2012. Such report included all Fannie Mae mortgage securities (with those forth below) outstanding as of December 31, 2011 and included all activities between and including January 1, 2009 and December 31, 2011 that relate to repurchase de Fannie Mae against the seller of the related mortgage loans (including activities in such period related to repurchase demands made prior to January 1, 2009) for bre representations and warranties related to such mortgage loans.

In accordance with Rule 15Ga-1, Fannie Mae is filing a report on a quarterly basis approximately 45 days after the end of each calendar quarter. Such report include securities (with those exceptions as set forth below) outstanding at the beginning of that calendar quarter, and includes all activities in that calendar quarter the repurchase demands made by Fannie Mae against the seller of the related mortgage loans (including additional activities in such period related to initial repurchase period) for breaches of representations and warranties related to such mortgage loans.

Because the report does not include information related to the origination date of a loan, market participants should not draw conclusions about the age of the morte securities based on when the report was filed. In order to determine the issue date of an MBS, one can look up the CUSIP, Trust or Pool number on the PoolTalk® app. Fannie Mae's website or utilize another third-party data source. Fannie Mae also provides the origination year of the loans in a particular pool on its PoolTalk® ap the Prospectus Supplement for each issuance of MBS Securities.

Fannie Mae engages in a variety of practices with respect to mortgage loans where there are breaches of representation and warranty. Fannie Mae may require a seller loans from a Fannie Mae trust if it determines that there has been a breach of representation and warranty. Alternatively, Fannie Mae may have already removed such a Fannie Mae trust in accordance with the terms of the related trust agreement at the time that it makes such repurchase demand. Such repurchase demand may result in a payment by the seller of the mortgage loan to reimburse Fannie Mae for losses that it has suffered with respect to such mortgage loa settlement of such demand, as agreed to by the seller and Fannie Mae. Each such repurchase demand made by Fannie Mae with respect to a listed mortgage security is of (i) whether the mortgage asset in question is in the related Fannie Mae trust at the time of demand and (ii) the ultimate resolution of such demand. Consistent wand 10-Q SEC filings, the first receipt date of funds for repurchase, as captured in Fannie Mae's systems, is used to determine when a repurchase demand has been fully standard to the second standard trust at the time of demand and the determine when a repurchase demand has been fully standard to the second standard trust at the time of demand and the determine when a repurchase demand has been fully standard trust at the time of demand the determine when a repurchase demand has been fully standard trust at the time of demand and the determine when a repurchase demand has been fully standard trust at the time of demand and the demand trust at the time of demand and the demand trust at the time of demand and the demand trust at the time of demand and the demandard trust at the time of demand and the demandard trust at the time of demand and the demandard trust at the time of demandard trust

The report will not include percentage calculations for most fields.¹ Because Fannie Mae routinely makes repurchase demands after the related mortgage loans have been removed from the related Fannie Mae trust, such percentages would tend to overstate (and, in many cases, significantly overstate) the percentage of a giver subject to a repurchase demand. Fannie Mae will provide the number of mortgage loans and the principal balance of such mortgage loans in each case.

Breaches of representations and warranties generally relate to the underwriting of a mortgage loan, but may sometimes relate to (i) misdeliveries unrelated to the un loan or (ii) servicing violations. The report includes all breaches of representation and warranty where Fannie Mae is seeking a remedy, and does not distinguish be underwriting deficiencies and those unrelated to such deficiencies. For example, a mortgage loan seller may inadvertently include a fixed-rate mortgage loan as part pool. Such fixed-rate mortgage loan may meet Fannie Mae underwriting requirements, but Fannie Mae nevertheless has the right to demand repurchase of such mortgage loan seller's representation and warranty that such mortgage loan bears an adjustable rate.

This report includes only those Fannie Mae mortgage securities where Fannie Mae has the right in the related transactional documents to demand repurchase by the sell representation and warranty. These securities typically include Fannie Mae single-family MBS, Fannie Mae whole-loan REMICs and multifamily securities. Consequently securities, including Megas, Stripped Mortgage-Backed Securities, most REMIC Securities and other securities backed by Ginnie Mae securities or other securities are

As described above, the mortgage loans may not necessarily be in the related Fannie Mae trust at the time that such repurchase demand is made. Additionally, a mortgath that is paid off prior to the actual repurchase will not be reflected in subsequent reports. The data in the report is presented by issue date with single-family ar commingled throughout the report and structured products (such as REMICS) reported at the end. For applicable Fannie Mae structured products governed by Rule 15Ga-1 at a deal-group level. As the deal-groups pay off, the data will be removed from subsequent reports. Certain terms used in the report are defined below.

The term "Total Assets by Originator" presents, by originator, the number and issue date principal balance of the mortgage loans in each Fannie Mae trust.² The term "originator" is the party that funded the mortgage loan in question. It is common practice in the residential mortgage lending industry for some originators to they originate to third parties, who aggregate such mortgage loans from multiple originators and sell them to Fannie Mae. Because Fannie Mae's contractual relations rather than with the originators, Fannie Mae had not, prior to November 2012, obtained the names of such originators.³ To obtain such information (in many cases, years after issuance) would be prohibitively expensive. Consequently, where Fannie Mae does not have the name of the originator, it is electing under paragraph (a)) the identity of such originator, but will list the originator as "Unavailable" in such cases. Fannie Mae is nevertheless able to make repurchase demands in such case the seller (which party is frequently not the originator) of the mortgage loans who has made the representations and warranties to Fannie Mae and who has the obligat loans in the event of a breach of representation and warranty.

Beginning in November 2012, Fannie Mae began to require its mortgage loan sellers to identify the originators of mortgage loans subsequently delivered to Fannie Mae information, as so provided by Fannie Mae's mortgage loan sellers, with respect to securities issued in December 2012 or later. In certain cases, such information would be prohibitively expensive. Consequently, where Fannie Mae does not have the name of the originator, it is electing under paragraph (a)(2) of the identity of such originator, but will list the originator as "Unavailable" in such cases.

Certain Fannie Mae mortgage securities, all of which were issued no later than January 1, 2001, included at one point in time mortgage loans for which Fannie Mae no balances. All of the mortgage loans in question were removed from the pool or were paid off prior to January 1, 2009. Fannie Mae no longer has the related issue da mortgage loans and obtaining such information would be impossible or prohibitively expensive. Consequently, Fannie Mae is electing under paragraph (a)(2) of Rule 15 date principal balance of such mortgage loans. The CUSIP numbers of the securities where Fannie Mae has made such election are listed below.

The term "Assets Pending Repurchase" refers to the number and outstanding principal balance of mortgage loans where (i) such mortgage loans were the subject of a reperting period or prior thereto, and (ii) such repurchase (or other resolution of such claim) remains pending. This term will include both situations where the to Fannie Mae's repurchase demand as well as those situations where the loan seller has agreed to but not yet completed such repurchase.
