Exhibit 99.1

Fannie Mae
2006 10-K Investor Summary

FannieMae

August 16, 2007

- These materials present tables and other information about Fannie Mae, including information contained in Fannie Mae's Annual Report on Form 10-K for the year ended December 31, 2006. These materials should be reviewed together with the 2006 Form 10-K, a copy of which is available on the company's Web site at www.fanniemae.com under the "Investor Relations" section of the Web site.
- More complete information about Fannie Mae, its business, business segments, financial condition and results of operations are contained in the 2006 Form 10-K, which also includes more detailed explanations and additional information relating to the information contained in this presentation. Footnotes to the included tables have been omitted.
- Statements in these materials, including those relating to our expected future credit losses, market share and administrative expenses, as well as the quality of our mortgage credit book of business and its credit characteristics, may be considered forward-looking statements within the meaning of the federal securities laws, and Fannie Mae's future performance may differ materially from what is indicated in any forward-looking statements. Information that could cause actual results to differ materially from these statements is detailed in the 2006 Form 10-K, including the "Risk Factors" section.

Current Highlights

FannieMae

- **Continue to hit key milestones**
  - Continued momentum towards current filing status – on track to meet February 2008 goal
  - 2006 10-K – 8/16/07
  - 2005 10-K – 5/2/07
  - 2004 10-K with Restated Historical Results – 12/6/06
- **Demonstrated commitment to return capital to shareholders**
  - Two dividend increases in last eight months (to $0.50/share per quarter)
- **Businesses well-positioned to take advantage of opportunities in evolving market**
  - Guaranty businesses momentum
  - Increasing Single-Family market share
  - Capital Markets' continued support of MBS, and focus on long-term total return, while maintaining compliance with an OFHEO-directed cap on our mortgage portfolio.
- **Risk measures demonstrate effectiveness of risk disciplines**
  - Credit characteristics of existing book remain strong, though we expect our credit loss ratio will increase in 2007 to what we believe represents our normal historical range of 4-6 basis points (e.g. 1990-1997)
  - Duration gap continues in +/- one month range
- **Building the foundation needed to support a dynamic, growing business**
  - Strong capital position
  - Remediation of many controls issues
  - Improving systems infrastructure
  - Progress toward reducing 2007 administrative expenses and establishing a lower run-rate for 2008

2006 Results

► 2006 results reflect a challenging market environment, as well as significant restatement and remediation efforts.

- Net income available to common stockholders decreased to $3.5 billion, a $2.3 billion or 39% decrease
- Administrative expenses increased from $2.1 billion to $3.1 billion
- Book of business grew 7% to $2.5 trillion, despite the competitive environment
- Credit-related expenses increased to $783 million from $428 million
- Average effective guaranty fee rate remained strong and stable, 21.8 bps in both 2006 and 2005
- Core capital grew to $42.0 billion, $3.8 billion above our OFHEO-designated 30% capital surplus requirement
- Estimated fair value of net assets (non-GAAP), before capital transactions, grew by $2.2 billion, or 5%
- Interest rate risk and credit risk measures reflected a generally strong book, though the credit loss ratio increased to 2.7 bps, closer to the higher historical levels

Total	$ 4,059	$ 6,347	$ 4,967	$ (2,288)	(36)%	$ 1,380	28%

- Net Income decreased to $4.1 billion, a $2.3 billion or 36% decrease from 2005 levels.
- Single-Family net revenues increased to $6.1 billion, up 9%. Net income declined to $2.0 billion, down 22% from 2005. Key drivers included higher losses on certain guaranty contracts, higher administrative expenses, and higher credit expenses, offset partially by higher guaranty fee income, and fee and other income.
- Net income for the HCD business segment decreased by $165 million or 33% in 2006 from 2005 resulting from an increase in administrative expenses and credit enhancement expense and a decline in net revenues, which were partially offset by increased investment tax credits from HCD's Low Income Tax Credit investments.
- Our Capital Markets business generated $1.7 billion in net income, down 48%, as lower net interest income and higher administrative expenses were partially offset by declines in derivative fair value losses, and declines in investment losses.

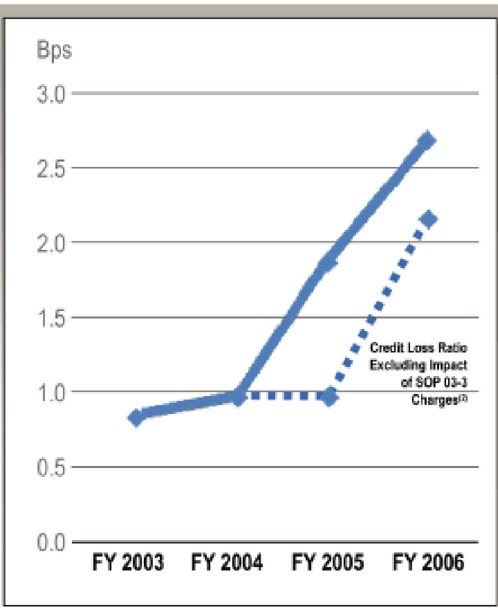
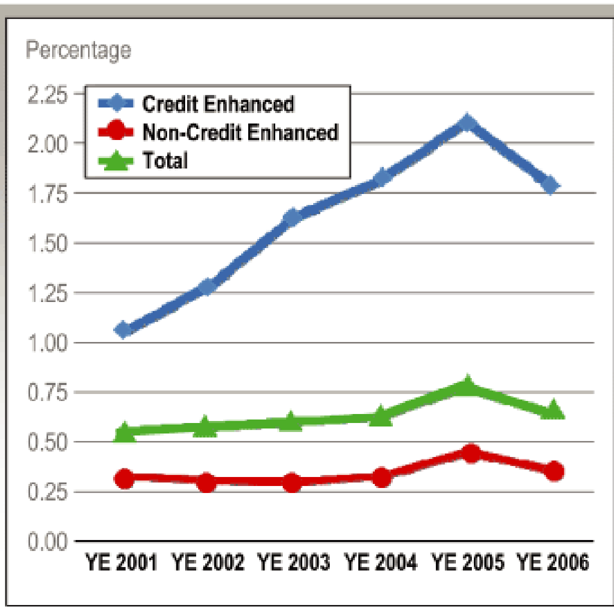
Credit Losses(1)/Book of Business



Single-Family Serious Delinquency Rate(2)



(1) Credit losses include foreclosed property expenses plus net charge-offs.

(2) Under SOP 03-3, we are required to record as a charge-off the excess of the acquisition price over fair value of delinquent loans we purchase from Fannie Mae MBS trusts.

(2) Greater than 90 days past due

- Higher credit loss ratio primarily due to continued weakness in the Midwest region of the U.S. as well as due to overall weaker home price appreciation.

Estimated Fair value of net assets, has increased by $0.7 billion, $2.2 billion net of capital transactions

Key Drivers:

- Payments of $1.7 billion of dividends to holders of common and preferred stock
- A decrease in the estimated fair value of our net guaranty assets of approximately $1.4 billion driven primarily by the slowdown in home price appreciation that occurred in 2006
- A widening in OAS on securities held by us resulted in a decrease in fair value of our mortgage assets.
- A decline in agency debt OAS relative to LIBOR resulted in an increase in the fair value of our liabilities, that further decreased the overall fair value of our net assets.
- More than offsetting the decline in fair value of net assets due to changes in spreads was an increase in fair value due to a decrease in implied volatility.

The estimated fair value of our net assets (non-GAAP) represents the estimated fair value of total assets less the estimated fair value of total liabilities. We reconcile the estimated fair value of our net assets (non-GAAP) to total stockholders' equity (GAAP) in the Appendix.

APPENDIX

- The following sets forth a reconciliation of the estimated fair value of our net assets (non-GAAP) to total stockholders' equity (GAAP). A more detailed reconciliation is contained in Table 21 of the 2006 Form 10-K.

(Dollars in millions)	As of December 31,	
	2006	**2005**
Estimated Fair Value of Net Assets, net of tax effect (non-GAAP)...............................	$ 42,901	$ 42,199
Fair value adjustments................................	(1,395)[(1)]	(2,897)[(2)]
Total Stockholders' Equity (GAAP)......................	$ 41,506	$ 39,302

(1) Represents fair value increase of $1.6 billion to total assets of $843.9 billion less a fair value increase of $0.2 billion to total liabilities of $802.3 billion.

(2) Represents fair value increase of $1.9 billion to total assets of $834.2 billion, plus a fair value decrease of $1.0 billion to total liabilities of $794.7 billion.
